AUDIENCE

The Organizing Committee of the 5th International Conference **ADVANCES IN CLINICAL NEUROIMMUNOLOGY** ACN 2016, which will take place on June 17th–18th 2016 in **Warsaw**, Poland has the pleasure of inviting you to participate in this important scientific event.

Participants from all over the world, mainly from Europe, neurologists, and immunologists interested in **clinical neuroimmunology**.

LECTURES AND PROGRAMME

Top international scientists in clinical neuroimmunology from Europe and United States will be invited. There will be sessions covering main fields of clinical neuroimmunology. Additionally short oral presentations, sponsored sessions by industry working on multiple sclerosis therapy and other neuroimmunological disorders are planned.

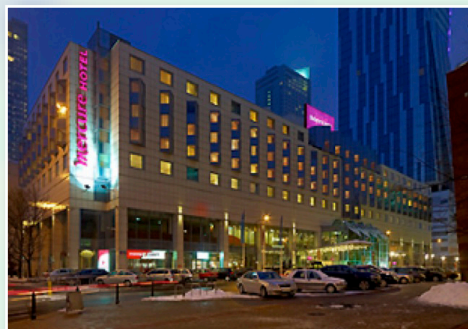

LOCALISATION OF CONFERENCE AND EXHIBITING SPACE

Hotel Mercure Warszawa Centrum, located in the heart of the city, will not only be the conference centre, but also a place where the Guests and Lecturers are accommodated. We offer exhibition space in the vicinity of the registration / coffee break area which guarantee great exposure during the conference. Its location in the rapidly developing business heart of the city, and its proximity to the exhibition center (Palace of Culture and Science) and a number of cultural attractions makes the hotel the perfect location both for business travelers and tourists.

Banquet will be organized in Belvedere Restaurant, New Orangery in the Royal Łazienki Park.

Belvedere Restaurant is one of the most beautiful and most interesting points on the culinary map of Poland. It combines unique design, excellent cuisine and remarkable history. Belvedere is in a unique location — New Orangery in the Royal Łazienki Park is a building of more than 150-year history. Surrounding the park alleys, rose gardens or company of proud peacocks create the unique atmosphere of this place.

The concept of the menu is based on the changing seasons and uses fresh, mostly local products. Dishes are prepared under the guidance of Chef Adam Komar, which serves mainly Polish cuisine in a modern interpretation. The unique combination of flavors offered by Belvedere immediately conquering the hearts and last in the memory.

The Royal Łazienki are a harmonious synthesis of eighteenth-century architecture and historic gardens, which provide a rich and diverse natural setting. This place is inextricably linked with Stanisław August Poniatowski — a politician, reformer, philosopher-king, as well as renowned patron and art collector — and it contains some of Europe's architectural gems, such as the Palace on the Isle and the Old Orangery. Moreover, the Royal Łazienki will always symbolize Stanisław August's courageous attempts to transform the Polish-Lithuanian Commonwealth into a modern state.

SPONSOR BENEFITS

BANQUET

Today the Royal Łazienki are considered “the most convivial place in Warsaw”. Here visitors are able to not only relax and observe the wildlife and plants, but also broaden their knowledge of the Enlightenment, thanks to meetings organized with eminent philosophers and art historians. Because of the Museum’s contacts with European high culture, visitors are given the opportunity to participate in numerous cultural and educational events. The most famous of these events are undoubtedly the traditional piano recitals which take place each year from May to the end of September in front of the Fryderyk Chopin Monument.

The Royal Łazienki are open daily to visitors from all over the world, who can admire the unique collection of paintings and sculptures amassed by the last Polish king,

both in the palace interiors and in the gardens. This former royal residence is also one of the most elegant and prestigious venues in Warsaw frequented by prominent politicians, scholars, representatives of the arts, as well as royal couples and crowned heads.

WARSAW

Warsaw, nurturing over 400 years of pride as a capital, is Poland’s largest city and an economic, political, and cultural centre. The symbol of the city is the Mermaid, featured on the city seal. Warsaw is a bustling metropolis and features an unforgettable history. A city where a fourth of the terrain is covered by parkland and a city of culture for all tastes and budgets.

Although the beginnings of Warsaw go as far back as the 12th and 13th century Warsaw was forced to completely rebuild after the near-total destruction of the city during World War II. The symbol of the capital’s rebirth was an unprecedented post-war re-creation of the Old Town, which in 1980 was put on the UNESCO list of World Heritage Sites, as an example of a nearly complete reconstruction of the original settlement using original town plans and architecture.

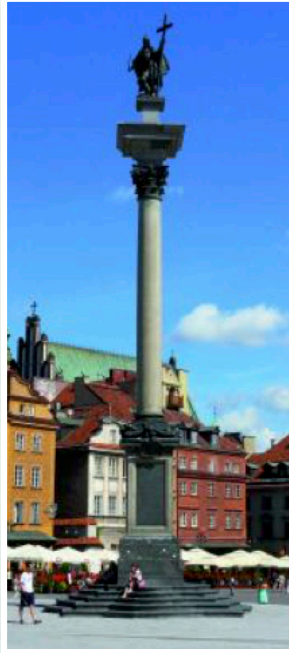

Royal Castle

On the other hand, the Palace of Culture and Science, which overlooks the city, is just the opposite in terms of ensuring historical continuity of the city. This unparalleled building, which is an example of socialist realist architecture, represents an icon of communism and enslavement. Today, it is one of Warsaw's youngest monuments, and like the Old Town, is a tourist attraction.

Throughout history Warsaw has always been a centre of important events and activities. Its exceptional vitality and capital status has always been the driving force to strive for and develop new aspirations and where new concepts and ideas are born. Warsaw is testimony to remarkable heroism, commitment and national pride.

Warsaw has existed for several hundred years. Once called "the Paris of the North", like the mythical Phoenix, it rose from the ashes after total devastation.
